

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant : William A. Shull et al. Art Unit : 2877
Serial No. : 09/305,808 Examiner : Hoa T. Lee
Filed : April 28, 1999
Title : HELIUM-NEON LASER LIGHT SOURCE GENERATING TWO HARMONICALLY RELATED, SINGLE-FREQUENCY WAVELENGTHS FOR USE IN DISPLACEMENT AND DISPERSION MEASURING INTERFEROMETRY

Commissioner for Patents
Washington, D.C. 20231

RESPONSE

In response to the action dated June 4, 2002, we submit the following remarks.

We acknowledge the Examiner's indication that claims 1-33 are allowed.

Of the remaining claims, claims 34-46, claims 34-37 are the independent claims. Among other features, independent claims 34 and 35 each recite "a Helium-Neon laser light source that generates two harmonically related, single frequency output beams" (emphasis added).

Similarly, independent claims 36 and 37 each recite "providing two harmonically related, single-frequency output beams from a Helium-Neon laser light source" (emphasis added).

The action rejected independent claims 34-37 as obvious over Hill (U.S. 6,137,574) in view of Zorabedian (U.S. 5,732,095). The action concedes that "Hill does not show that the laser source is a Helium-Neon light source" (page 2 of the action), but claims to find this features in Zorabedian - "Zorabedian shows a Helium-Neon laser light source for producing two harmonically related, single frequency output beams" (page 2 of the action). We disagree.

We submit that Zorabedian does not show "a Helium-Neon laser light source that generates two harmonically related, single frequency output beams," as required by the rejected independent claims (emphasis added). The only mention of a Helium-Neon laser light source we

CERTIFICATE OF MAILING BY FIRST CLASS MAIL

I hereby certify under 37 CFR §1.8(a) that this correspondence is being deposited with the United States Postal Service as first class mail with sufficient postage on the date indicated below and is addressed to the Commissioner for Patents, Washington, D.C. 20231.
